

Little tag - BIG difference!

No urban legend, just a fantastic success story...

Since 2006, several million bread bag tags and bottle tops have been collected. In 2016 over six tons of tags were saved from going into landfill sites!

They are sold to a manufacturer where they are used to make seedling trays. 200 kg of tags buys a wheelchair and by December 2017 665 wheelchairs had been given to those in need. This not only changes the life of the recipient but also makes a huge difference to those that care for them.

We are now also taking plastic screw on bottle tops and 450 kg of them get a wheelchair for a needy person. Tags and tops must be kept apart.

Start collecting today!

Simply put your bread tags and bottle tops into a separate containers and when you have more than you can cope with, take them to a collection point.

Please also like, friend and share our Facebook page to help spread the word far and wide.
